Subject: microsoft settlement

Please accept this email as my support for the Microsoft settlement that the Department of Justice has negotiated. There were countless hours spent to find the best compromise for the Microsoft company and their competitors. The millions of dollars spent would be for naught if we don't settle the issue and let the information technology industry begin to heal.

Again, thank you for your efforts and I encourage the closure of this issue.

Sincerely,

Steve Mascaro, Representative
Utah House of Representative
District # 47
